

WJMZ (107.3)nor any of the other stations in Greenville, SC serve the African American community. WJMZ is particularly opportunistic and notorious for encroaching on community ideas. It either coopts for its benefit or destroys by refusing to include in any meaningful programming. there definitions of public service announcements and applicable organizations is so narrow it excludes all except Black churches. There is no time for community dialogue, orginal music or poetry, or issues of the day (MLK day and '04 elections notwithstanding). For all the Black communities' interest, they could all go onto computer, put another lock on the front door and return to their headquarters in Atlanta, Connecticut, or wherever else they've come to suck money out of this community.
